DETAILED ACTION

Allowable Subject Matter

Claims 12-14 and 20 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 12, the prior art of record does not teach nor suggest, in the claimed combination, a process for manufacturing a contact on a microswitch prior to operation of the microswitch including exposing the microswitch contact to a fluid that operates in conjunction with the predetermined material to lower a contact resistance, the exposure to the fluid being over an interval that ends prior to, operation of the microswitch; and wherein the fluid comprises materials selected from the group consisting of oxygen, carbon tetrafluoride, sulfur hexafluoride or other fluorine-containing gases, argon and mixtures thereof.

Claim 20, the prior art of record does not teach nor suggest, in the claimed combination, a semiconductor package having a semiconductor die connected to external pins, the die including an active area; a microswitch formed on a surface of the die, wherein a microswitch contact is formed with a process for reducing a resistance of the microswitch and maintaining a low resistance of the microswitch for many cycles by temporarily exposing the microswitch contact to a fluid that operates in conjunction with the contact material to lower a contact resistance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
